KurzbeschreibungForbes Mates: Book One Finley Cooper is tired of waiting for his destined mate to be ready to claim him. In deference to human laws, hes already agreed to wait until hes eighteen. But now his birthday has come and goneand his mate has a new set of excuses. Finley doesnt understand it any more than his wolf does, and hes beginning to wonder if fate made a mistake. Tanner Pearce wants nothing more than to claim his mate, but he worries that Finley is too young. Tanner will never forget what happened when his best friend mated at Finleys age, only to have that mate end up feeling trapped and breaking their bond. While rare, it can happen, and the fallout Tanner witnessed as his best friend tried to deal with the break has haunted him for years. When Finley finally has enough, he threatens to find someone who will claim him if Tanner doesnt, and Tanner realizes he needs to come to terms with his fears or risk losing his mate forever.
