previously from *Midnight Rainbow* and *Rachel Jones* and continues her legacy of crafting romance with heartmelting heroes and heroines. Kell is unexpectedly attacked by the villains on the high sea and is swept to the Diamond Bay where Rachel found him and nursed him back to health. Linda Howard weaves an intricate and emotional tale when the sexy Kell falls in love with Rachel but takes rein on his passion for fear of Rachel's safety. His job is dangerous - and he knows it, and soon after his enemies are on the chase for him...Diamond Bay is a passionate read but even more stirring in the emotions it awakens. It explores Rachel's vulnerabilities, Kell's undying love for her in the line of duty which altogether climaxes in the suspenseful end when enemies hunt them down. Realism aside, this book is definitely a keeper for romantic fanatics - who likes sexy, gorgeous heroes and an abiding passion. Out of the *Silhouette* collection, this is Ms. Howard at her best and certainly jewelled fun and passion. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Same Story, but No Fault Von Customer Linda Howard writes the same love story over and over again. Strong, forceful, dangerous man meets 29-30 year old woman with either no sexual experience or very limited sexual experience. He falls madly in love with her at first sight and has to restrain himself from overwhelming her with his passion immediately. Instead, he announces that she will have him and be glad for it - and of course she is, and he is amazing in bed. I would so like to meet one of these guys. All those caveats aside, Linda Howard does this really well and all of her books have been fun to read. Diamond Bay is particularly interesting - our heroine has to rescue her unconscious hunk from the ocean and drag him up the beach to her cottage - a superhuman feat she accomplishes with the help of her faithful dog. She then nurses him back to health (washing his naked body day and night to keep the fever down - be still my beating heart!). He plans to leave her, although he loves her more than life itself, so that she will be safe from his powerful enemies. You get the idea, I'm sure! Done well, this novel is a paragon of its genre! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Another great book by Linda Howard! Von Susan J. Reinhardt Having read the trilogy - *White Lies*, *Midnight Rainbow* and *Diamond Bay* - backwards I can honestly say that this one is my favorite! The plot is original, the characters are great (it was wonderful to finally get a handle on Kell Sabin), and it's superbly written. I'd have to say that this is a must read for any Linda Howard fan or for anyone who loves a great love story!
